## Tartan

The porcelain series "Tartan", named after the traditional woven, patterned cloths of the Scottish clans, is all about the Scottish way of comfort. Here, the home is a feel-good scenario in which friends and family enjoy their cosy tea time together. A lifestyle trend that inspired ASA Selection to create a perfectly coordinated new porcelain service. Porcelain cups and plates, a teapot with a stainless steel filter for full tea enjoyment, and decorative placemats are decorated with the typical large tartan. Stylishly in the tartan colours red, petrol, green and beige, all decors have at the same time a touch of Scottish Celtic glamour. Just as golden needles adorn the kilts of the Scots, golden lines in the checks shimmer on tartan porcelain.

## Coppa

As Autumn and Winter days draw in, Coppa revives the ambience again. Colours of nature and motifs from the winter woodlands atmospherically decorate the laid table on those long, cosy, fire side days. With the new Coppa decors Pine, Rosehip, Fir and Acorns as well as the Autumn colours petrol, taupe, red and olive, ASA Selection allows us to feel an intense connection to nature. In this winter collection, everyone will find their own personal Coppa favourites. The popular Coppa tumblers are made of Fine Bone China, a porcelain of special quality, whose special feature is the lightness of the material. And because Coppa mugs are an individual gift idea, they are delivered individually in attractive gift boxes.
