

# Discover new Horizons

Rays of light shine through the transparent glass to light up any wall or ceiling. The new Horizon is clearly a statement lamp with character. The shape is edgy, infinite and wide – it's a lamp designed to create attention with its unique look. Horizon is suitable for lighting solutions in private homes as well as hotels and restaurants.

## **Earthy, warm and delightful**

Toast brings with it warmth and earthy nuances. With a touch of gold it will add contemporary luxury and nordic style to your space.

## **A breath of fresh air**

Angry Sea is like a breath of fresh air. The colour is energising and natural. Like the air and the sea it evokes the essence of untamed ocean waves.

## **Our new red is Ruby**

Our new red is Ruby, and is the shade of a polished, cut Ruby gemstone. This deep, red hue adds elegance, luxury and richness to our lighting collection.

## **A moment of relaxation**

Pool blue brings to mind holiday, beaches and palm trees reflected in the water. The cool colour is a boost of live, joy and happiness.

## **Colours in disguise**

Dreamy rainbows and chameleons that change their colour to blend in. Our Chameleon has a mysterious and capturing appeal meant to dazzle the eye.

Horizon is available in all the new, timeless colours: toast, angry sea, ruby, pool blue and chameleon. The Horizon, originally designed as a pendant, is now launched both as a specific wall light, as well as a version suitable for both walls and ceilings.
