EMBELLISHING INTERIORS FOR 20 YEARS

We will celebrate our 20 years soon. We are proud to have developed collections for bespoke projects with architects, designers, hotels, golf and private villas... Matching between colours association, joining raw and smooth materials, this is a part of our job. In Angelo, we all share this passion for design and this is what we want to convey through our collection.

FROM STANDARD TO MADE TO MEASURE

Rug is the final touch to design an interior. We offer standard or made to measure rugs, from sizes to colours, from colours to designs, from designs to shapes... We offer a customer service in order to answer the best we can for each project or to create one's own rug. Nowadays, it makes our strength.
