

# DAQICONCEPT New Collection CHIRP

## – Now Available

DAQICONCEPT is excited to announce the launch of CHIRP, an unique alarm clock that blends superior light and sound technology with traditional craftsmanship. Form meets function as CHIRP is not only a practical object but also adds a beautiful aesthetic to your interior. A welcome departure from the synthesized sounds from a mobile device or a regular alarm clock, DAQICONCEPT CHIRP awakens you with gentle light and the blissful sounds of nature. Wake up feeling refreshed, energized and ready to start each new day.

Like a messenger of nature DAQICONCEPT CHIRP brings nature sound inside your intimate environment. By playing DAQICONCEPT CHIRP you feel like being in a scenic environment surrounded by trees, bird chirp, floating water or blossoming flowers. Help yourself to hold the balance and let your mind relax.

One Touch sync via audio transmission :

Download the DAQIChirp App available in the App store to customize your personal preferences. Your preferred sound and timing is synchronized via audio transmission.

This technology is free from any wireless connection and issues no further signal. DAQICONCEPT CHIRP therefore facilitates a healthy sleep environment free from interference and has been designed to be placed safely beside your bed.

It can also be a cuckoo clock, tells the time with cuckoo sounds every hour and half-hour

More details and video please go: [www.daqiconcept.com/chirp](http://www.daqiconcept.com/chirp)
