

BONNE NOUVELLE

PARIS

We are pleased to present our new stationery collection at the Maison et Objet exhibition, from 6 to 10 September in Paris.

Our mission? Embellishing everyday life

We are a young paper object publishing house, created in 2015 by Marine Rouit-Leduc, designer and paper lover.

Guided by the desire to share the experience and pleasure of paper, we strive every day to create original and smart objects for everyday life, inspired by the world of fashion or the office.

We carefully select our materials, we work with new colour palettes each season and pay particular attention to the details and finishes of our French-made products.

Our new Happy Office collection

We are pleased to present you our new collection of notebooks and office accessories, designed by us and manufactured in France to enhance everyday life at work.

Our smart products have been designed to help you take notes, draw and organize ideas: the Paper notebook with its silky inner paper and discreet dot pattern, the Colors pencil duo, as well as the universal calendar and the Bookmarks trio to slip into all notebooks. We have paid particular attention to the choice of materials, shapes and colours, in order to open up a new space of breathing and freedom as a holiday atmosphere...

The Maison & Objet exhibition will be held from 6 to 10 September at the Paris-Villepinte Exhibition Centre.
