Bonjour à toutes et tous,

This year again, the common adventure of [Geneviève Mathieu](#), vegetal sculptor and [Manoli Gonzalez](#), ceramic sculptor continues, with new unique pieces where elegant fishes with subtle reflections on immaculate porcelain circulate in the meanders of branches recomposed in carefully selected woods. These fantastic trees fly out from imaginary aquariums evoked by thin metal cages.

These new poetic creations with four hands will be presented to you **Hall 5A (CRAFT Ateliers d'Art de France) stand L20 from September 6 to 10.**

It is with pleasure that we will meet you there so that you can discover them in exclusivity.

See you soon

Geneviève Mathieu & Manoli Gonzalez
