

WINEDEC

The most elegant and entertaining way of decanting and aerating wine. Designed by wine experts, for everybody to enjoy good wine.

Completely handmade from Swedish laboratory-grade glass and Swedish oak of the highest quality. The unique design removes wine sediment and the precision spout creates a gentle vortex of wine and air for optimal flow. The aerating spiral offers a mesmerizing experience while exposing the wine to just the right amount of air.

MATERIAL: Laboratory-grade glass and oak

LARGE: Height 750 mm, Widht 250 mm **MEDIUM:** Height 600 mm, Widht 220 mm
