

“Beyond Wabi Sabi”

The philosophy of wabi sabi has become an unforgettable fixture of many interior designs. The beauty of weathered nature and time has been embraced and continues to please our senses.

At The Silk Road Collection, we have taken the concept of wabi sabi a step further. Beyond the aesthetic pleasures of imperfection, we find a spiritual longing in the home for intimacy and serenity. We believe that imperfect beauty can help create a connection between home and inhabitants.

“Beyond Wabi Sabi” is all about connection. At Maison&Objet we will present the unique objects of this collection, selected for their profound beauty, in a great juxtaposition of colour, texture, shape and material.

The Silk Road Collection believes that, by creating a juxtaposition with design and antique, emptiness and detail, uniqueness and repetition; we find a timeless space that radiates serenity and inspires the spirit.
