ABOUT

Gong was started in London over 15 years ago as a decoration shop on Portobello Road, later on Fulham Road as well, selling furniture, lamps, homeware and accessories with a contemporary ethnic style. Over the years we have developed several lighting collections of our own design with distinctive styles and materials. Our Metal and Silk lamp collections are two of them.

The Metal collection was originally started by our business partner and friend Guillaume Evrard who sadly passed away in 2014. Guillaume designed the Dino and Peggy shapes taking inspiration from the 50's and artists such as Oppenheim, Mouille, Jakobsson, Almari. The lamps are entirely handcrafted, made of brass and metal. The shades come in various colours, all with a warm golden or silver interior. The Tarya models are the latest addition to our Metal collection.

The Silk lamp collection aims to create timeless and elegant lights providing a poetic atmosphere. This collection offers ceiling lamps in various shapes and sizes, such as the Meduse, AL36, Benitier. The lamps are entirely handcrafted, made of hand dyed or hand painted silk over a metallic frame. The colours currently available are white, cream, latte, grey, but many more are available on order.

We also offer a range of versatile teak chairs combining leather, cowhide and fabric in various colours with different teak finishes in a fusion of vintage and contemporary styles. And we are starting a range of mirrors and glass lighting. More to follow.

In memory of Guillaume.
