by Chic Antique

We have been looking forward to this moment for a long time and NOW we can finally reveal some of the exciting news we have designed for you for the coming spring of 2020. We are proud to present our brand new PRE-SPRING 2020 collection. The new collection is filled with amazing vintage- and French-inspired designs. Now, you can indulge in more than 250 new beautiful items, which you can look forward to enjoy this coming spring.

The PRE-SPRING 2020 collection is bursting with the most wonderful spring décor for the home and garden. Our new collection invites you to relax and encourages you to find your inner peace and “hygge”, as well as to enjoy the early signs of spring. The collection comprises the most wonderful and natural materials, and throughout the entire collection you will sense a deep respect for nature combined with our focus on quality and unique details. The products are authentic and handmade – and the French inspiration is visible throughout the entire collection!

In the new PRE-SPRING Collection you will find many new furniture. This season's must-have is the most charming old French rocking chair in rattan. Add some of the season's beautiful fabrics and some baskets with flowers and you have created the perfect place for a quiet moment. In addition to the rocking chair you will find a romantic, antique white church bench, a factory cafe table and chairs in antique black iron, many different cabinets, benches, tables, etc. etc. We also do think that our two new cosy hammocks and the beautiful swinging chair just might tempt you? All three items come in a lovely, antique cream colour and invites you to a relaxing moment in the conservatory, on the terrace or on your balcony - or simply in the favourite corner of your home.

Springtime means lanterns - plenty of lanterns! Inside as well as outside. The lanterns decorates so beautifully and invites you to spend some extra time in the cozy light from the candles before you go to bed. Our PRE-SPRING Collection offers a wide range of new lanterns in many different materials and designs - large as well as small.

The PRE-SPRING 2020 collection also includes a brand new and amazingly beautiful series of flowerpots, bottles, eggs, hearts, birds, deco balls, etc. The name of the series is Vienne and it is hand-painted with the most adorable pink/dusty rose flowers. Undoubtedly, Vienne will conquer your heart if you are a true romantic soul. In addition to Vienne, this spring's new collection offers many, many more types of pots and centerpieces, both the more raw and rustic, the industrial, the classic, and of course a large selection of the romantic French country variants. There is definitely something for everyone.

When the forest is covered by a beautiful, white carpet of anemones and the beech pops out, you know for sure that spring is finally here - and so is the new PRE-SPRING collection from Chic Antique. We have done our utmost to create the most beautiful setting for the coming of spring and it is our hope that together we will create many beautiful memories of lovely spring days and warm summer evenings.

The best spring greetings from all of us at
