

# Swedish Design *for a* Living World | 20 20

In the spring of 2020 Wildlife Garden will introduce a large number of new products and we are delighted to show you a few selected items.

Experience Africa the moment you enter your hall way. Wildlife Garden has designed a series of hooks featuring hand carved animal's heads representing various species from the African savannah. The realistically carved hooks are both decorative and practical. The hook itself is metal, and the animal heads are carved out of linden wood.

München, Trendset, 5-7 Jan, Hall A3 : E46

Wildlife Garden has grown and we are proud to say that we now have customers from all over the world. This makes it an even greater pleasure to be able to present birds and animals from additional continents. The unique and familiar birds and animals of Australia, North America and Africa are now in our product range.

WG4528  
Hook Platypus

WG521  
Hook Koala

WG522  
Hook Kangaroo

We are especially fond of pandas, so we are very happy to finally be able to offer the black and white bear in our range of hooks. Our popular collector's series DecoBird also has two new European birds. Let nature inside your home with a resting barn swallow, or a kestrel that is characteristically perched on a post.

WG4438  
DecoBird Barn Swallow

WG4470  
DecoBird Kestrel

WG4531  
Hook Panda

All our hand-carved hooks cost  
EUR 20

WG4438 DecoBird Barn Swallow  
EUR 25
