SPRING / SUMMER COLLECTION 2020

PRESS RELEASE JANUARY 2020 - for immediate release

Note from our designer

THE MANUFACTORY

The cracked and washed out facades of Italy planted the seeds of inspiration for this January 2020 collection. Named after the fantastic atelier and maker store where we photographed this season - THE MANUFACTORY collection is a blend of colours and neutrals, in many different stripes and textures. Finding this location so close to home was like having an Italian villa, right here in Belgium.
