LUXURY RUGS SINCE 1946

## INTRODUCING OUR NEW HAND-TUFTED CATALOGUE

Ferreira de Sá Rugs has developed a new collection of hand-tufted area rugs and carpets for high-end residential and prestigious hospitality projects around the world.

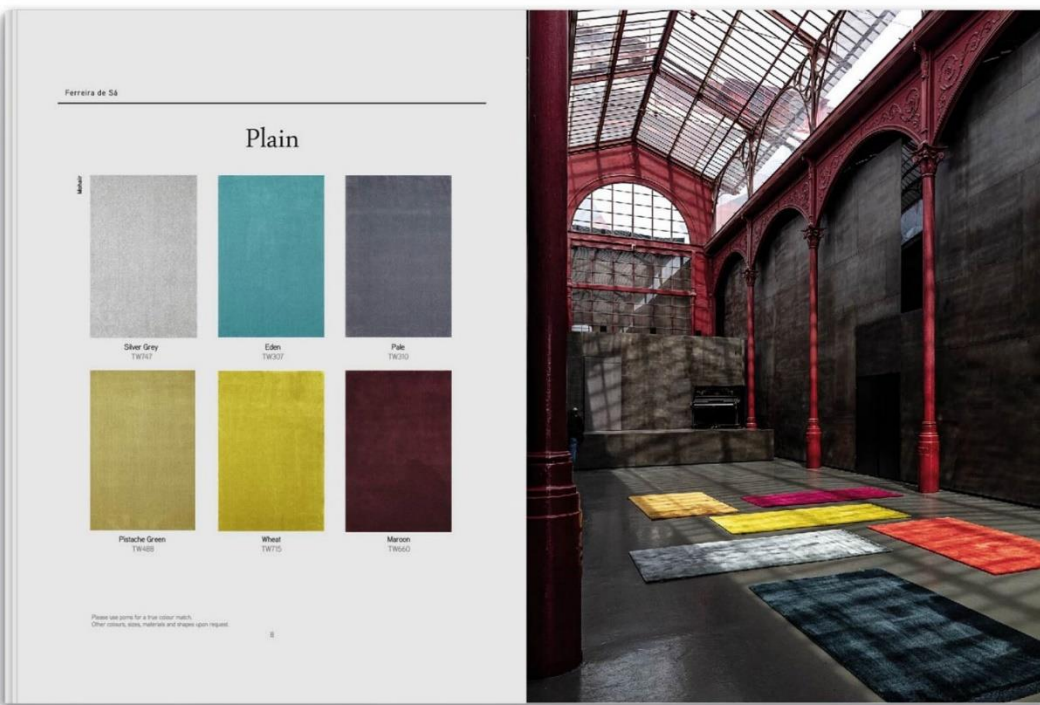

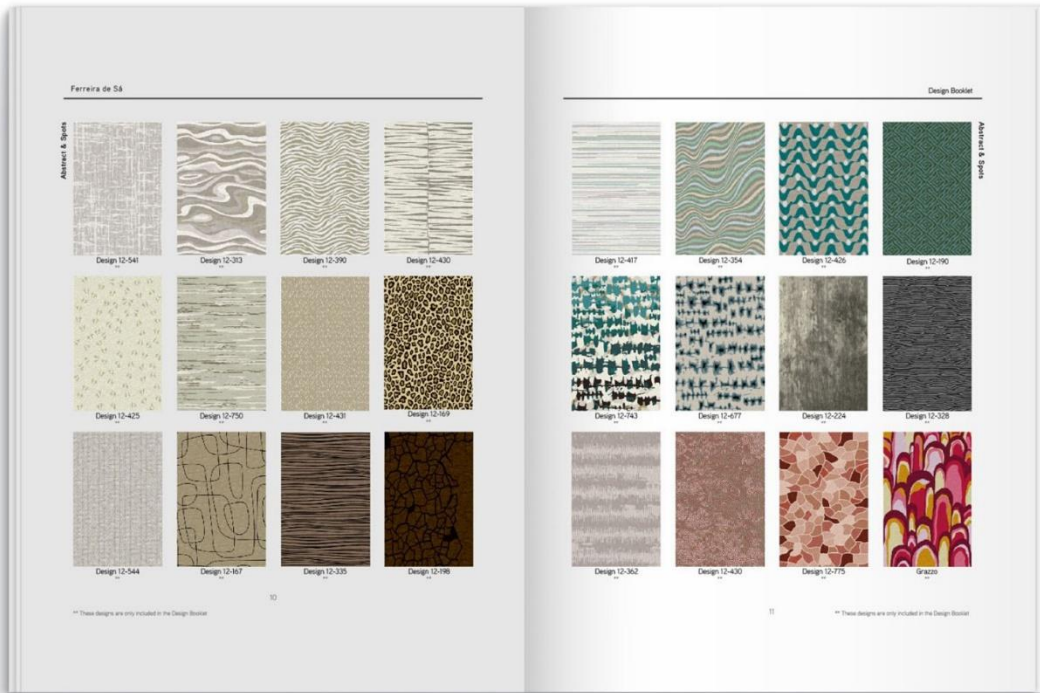

The hand-tufted technique offers endless possibilities in design:

- All kinds of textures, such as high pile and low pile, cut, loop.
- A 3-dimensional effect that can even be achieved, and the carving is done entirely by hand.

Finally, the hand-tufted quality is suitable for any area; from stair-runner and presidential suites to corridors and inset lobbies.
