

ALTUM

The Altum is Latin for high or deep water – or simply tide. The tide cleanses, brings new life and gives nourishment to the entire Wadden Sea – a unique nature reserve full of life and vivid plants. The main ingredients of the Altum line are the clean, natural, Nordic herbs like cornflower, rosehips, sea buckthorn and chamomile, which will give you a genuine and authentic experience of wellbeing.

Marsh Herbs will take you straight into the wild, flowery fields by the Wadden Sea. It is balsamic and warm with notes of fresh, green wood. Marsh Herbs contains rosehip extract, which is rich on betacaroten and vitamins A, C and E.

Our new Meadow-scent puts the ancient cornflower's ability to calm and cleanse into use. The cornflower products are ecological and thus ensuring that you can indulge in the pure experience of relaxing in a sunny flower field.
