GET INSPIRED!

It's a great pleasure to invite you to discover our new booth and our taxidermy collection at Maison & Objet Paris from the 17th until the 21st of January 2020. You can find us in **Hall 6, Booth E58**.

New!

At Maison & Objet we would like to present to you our new collection. Our award-winning taxidermy department ensures that we can offer the best quality. 2 of our taxidermists are Dutch Champion taxidermy and 1 is European Champion taxidermy. We value craftsmanship a lot .

Our taxidermists have worked very hard, so we can offer you a lot of unique and exclusive taxidermy items! This year we will introduce some big surprise items.

Origin

All our animals had a good life in zoos or breeding centers. We give these animals a second life, to show their beauty. DMW.NU is an official qualified taxidermy company. We work for various designers, natural history museums, universities, artists, etc.

The art of taxidermy

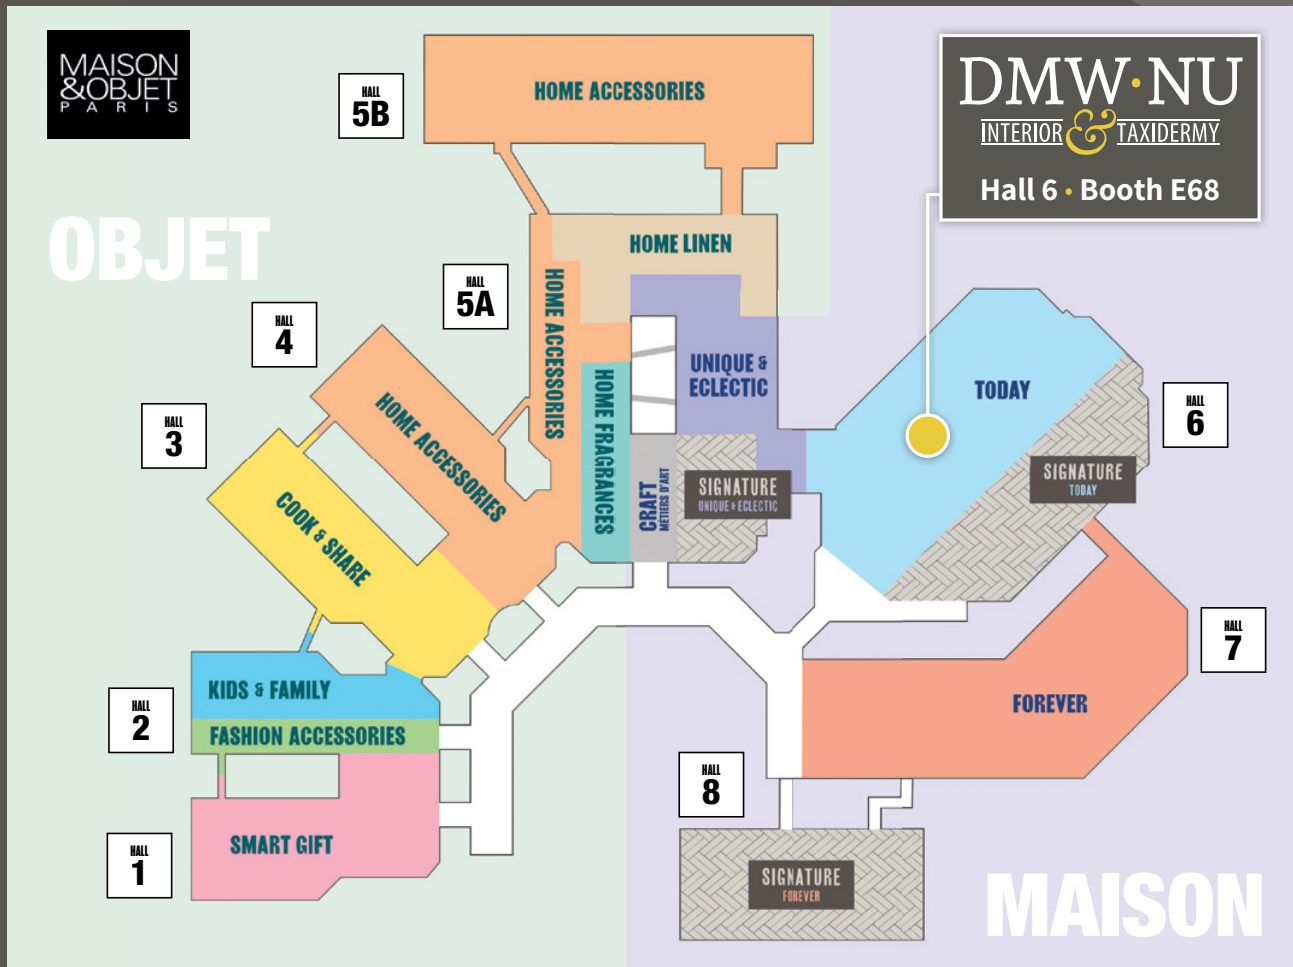

Taxidermy is a preservation technique of mounting animals for science, for display or interiors. The word taxidermy is a combination of the Greek words τάξις (taxis) moving and δέρμα (derma) skin: moving the skin.
