According to the ancient philosopher Plato, the soul associates with ideas. In order for human/man to reach the world of ideas, the soul must be liberated from the senses.

Inspired by the soul as a reference of desires and passions, we created a collection, combining with mood and momentum the style and the taste.

Luxury, high quality and aesthetics, are some of the features of our collection as well as the philosophy of our company.

With this alternative approach, we aim to breathe life into our clients' ideas by touching as much as we can the realization of their dream.

IOANNA KOURBELA

EN OIKO

"The garment is the house of the body."

Under this principal Ioanna Kourbela created in 2003 the designer brand, defining her own dimension of archetypal elegance. Architectural designs that combine an essential truth with visual boldness, directing future aesthetic into the eternal now. Through an architectural approach to fashion, the designer follows and expands the movement of the body, with creations that combine simplicity and theatricality, safety and freedom.

Energy from classical and modern art, Greek radiance, natural raw materials, vibrant polymorphic forms and lines that extend motion, create the ethereal but earthly world of Ioanna. The respect towards man and nature, the instinctive comprehension of traditional ideals and the quest for futuristic harmony, as well as her innovative sustainability measures in fashion, constitute her unique design and expression principles.

Ioanna Kourbela insists on producing in Greece her four pret-a-porter collections as well as her haute couture bridal collection. Garments filled with emotion, giving people the opportunity to express different aspects of themselves every day. With a growing successful presence in 25 countries, she is constantly meeting new "companions" on an aesthetic journey of self-awareness and self-liberation.
