

# *Endless Summer*

*by Chic Antique*

We are SO proud to present our new SPRING / SUMMER 2020 collection, Endless Summer, which will undoubtedly bring out memories of wonderful sunny days in the garden and warm evenings on the terrace.

The new collection contains the most wonderful summer interiors for the garden and your home, including a wealth of new, beautiful vintage furniture, beautiful lamps and countless jars, pots and flower crocks. You can also look forward to an endless line of candlesticks and lanterns, the softest fabrics, a lot of new kitchen interiors, clocks, hooks and shelves, many great zinc items, laundry baskets and much more! There are so many amazing and beautiful news this spring; it will be difficult to choose!

This spring we have completely turned up the romance, and the Endless Summer collection contains a wealth of beautiful vintage products that you cannot be without!

The range of vintage furniture has never been larger and is once again expanded significantly with e.g. new garden furniture, cabinets, sofas, bedside tables, kitchen shelves and much more.

A must-have this coming season is a rustic old wagon in recycled wood, with wheels made from old bicycle wheels. It is simply SO beautiful and practical. The wagon has a width that easily goes through most doors, so you can use it both inside your store or take it out on the sidewalk, as a beautiful display of your goods. At home, it leads the mind to the country atmosphere, with the courtyard's topped cobblestones and the quiet, rural atmosphere. Use it in the garden as a plant table, or on the patio, filled with rustic jars of flowers and beautiful lanterns.

There is no doubt that the garden, or conservatory, is the place you want to stay when spring sets in. Our guess is that your new favourite place will be the new beautiful Nancy sofa, styled with lots of adorable quilts and pillows, a good book and something cold to drink? We are completely in love with the new rattan furniture and look forward to a quiet moment in these beautiful furniture.

Of course, all the new furniture must be accessorised with new beautiful interiors - and there are countless options to choose from, so you can create exactly the style you want. There are many beautiful French vintage finds and the selection of tea light holders, chamber sticks, candlesticks, hurricanes and lanterns has never been bigger.

When spring arrives, it is time to decorate with lots of delicate, soft fabrics - both on the terrace and inside your home. New quilts, pillows and throws adorn the new collection, in the finest, soft materials and with several beautiful new designs.

Quality is paramount in the large selection of furniture, interior and home decor, where each product is designed and carefully selected with attention to the finest details. We have put our mind and soul into every detail in order to give our new *SPRING / SUMMER 2020* collection a beautiful and authentic expression.

Endless summer days and warm nights spent in the cosy light of the lanterns... We can hardly wait for summer to arrive and welcome us out into the garden – and to spend time on the terrace in the company of family and good friends.

Look forward to the new, beautiful Chic Antique collection *Endless Summer*  
- and to an endless series of beautiful summer days in 2020.
