

MY FRIEND PACO 

CATALOGUE 2020

Vibrant lifestyle objects
designed to share the little moments with you.

My Friend Paco is an ode to the little moments and beautiful things that, at the end, make our life happier. It is an ode to nature and colors, positive energies, freedom and happiness. It's made to provoke smiles and happy thoughts!

The brand was founded by Portuguese communication designer Maria Figueiredo in July 2016, manifesting the open minded youth culture and reflecting the influences of its founder, such as graphic design, art or fashion. Each piece is carefully designed and manufactured in Portugal, and each one has its own story to tell. They're created as if they are characters of a story and made to share the little moments of daily life - like friends.

Made for all those who appreciate unique and contemporary design, My Friend Paco wants to join you and cheer up your home with creative and soulful accessories in which graphic design is key.

Bonus: My Friend Paco is highly reliable. You can confide all your secrets: he will never reveal them to anyone!
