**Theia presents a continuously growing collection of Portuguese handmade tiles for covering walls, offering endless possibilities to create meaningful surfaces for each different space, imbued with personality.**

Emerging from a long mastery of manufacture. Theia gives shape to a design approach to the ceramic production, reinterpreting processes and formal possibilities, pushing manufacturing boundaries to create original shapes and volumes.

Through its wide range of carefully developed references and colors, Theia original designs offer a creative ground that allows the creation of contemporary ambiances, full of character, texture and personality.

CREATIVE TILES

*in partnership with*

Theia and Maison Sarah Lavoine have partnered to create a collection of gem-like tiles. There are two graphic models, available in five Iconic colours, that can be combined, mixed and matched to create an array of displays.

Maison Sarah Lavoine designed a harmonious collection of tiles giving way to amazing walls, creating an authentic universe of eclectic and accessible luxury.

## About Theia Creative Tiles:

Emerging from this long mastery of manufacture, Theia gives shape to a design approach to the ceramic production, reinterpreting processes and formal possibilities, pushing manufacturing boundaries to create original shapes and volumes. Theia boldly presents tridimensional shapes, traditionally more associated to the production of objects, in a collection of volumetric tiles to cover bidimensional surfaces.

Through its wide range of carefully developed references and colors, Theia original designs offer a creative ground that allows the creation of contemporary ambiences, full of character, texture and personality. The rich values of heritage, tradition and craftsmanship are evident in each handcrafted piece, giving shape to contemporary designs. Ideal to custom made projects, Theia tiles' versatility invites creativity to take center stage.

Theia presents a continuously growing collection of Portuguese handmade tiles for covering walls, offering endless possibilities to create meaningful surfaces for each different space, imbued with personality.

The inspiration that led to the creation of this tile design was the 1960's which was a time of change and iconic designs.

Stripes tiles pay an affectionate homage to this decade with its three dimensional patterns.
