Milan, January 2020

VETRERIE DI EMPOLI AT MAISON ET OBJETS IN PARIS WITH TWO MISES EN PLACE IN COLLABORATION WITH ROSENTHAL and SAMBONET

VETRERIE DI EMPOLI will be present at the PARIS SALON MAISON ET OBJETS, from 17 to 21/01/2020 Hall 8, Signature stand B16, with two visually striking "mises en place": the glasses and objects of the new collection will be displayed alongside the Rosenthal porcelains and Sambonet silverware. A special exhibit will present the porcelain pieces by Raynaud Limoges and silverware by Ercuis, both of the Sambonet Group.

"We thank Sambonet for this elegant collaboration, which allows us to display the very best that the great European tradition of the art of table setting offers the world," said Franco Parentini, President of Vetriere di Empoli.

At the same Salon, VETRERIE DI EMPOLI proposes the "Marmo" collection, a virtuoso application on glass with strokes that imitate the finest marble, including vivid touches of colored and gold veins, rigorously traced by hand.

"Many contemporary designers love to create unconventional combinations of materials and objects," says Franco Parentini. "We were attracted by the contrast between the lightness of glass and the solidity of marble, which may seem to be an oxymoron but is instead quite striking. Our marble collection unites elegance and design, tradition and modernity."

VETRERIE DI EMPOLI was founded in Empoli, a town in Tuscany, in 1938. Initially it specialized in the area's characteristic green glass, but over the years it began to produce increasingly sophisticated items. The Parentini family, proprietors of the Vetriere, manage the showroom in via Montenapoleone 22, in Milan, an international point of reference for those who value elegant table settings. Today, Vetriere di Empoli has an enviable reputation in the luxury sector, thanks to the uniqueness of its highly artisanal collections, whether of classic or contemporary design.
