

Maison et Objet January 2020 Hall 6 Today signature Stand K155

LUMNEO presents « ELLE & LUI » in partnership with Ateliers Gohard

Exclusivity & Limited Edition for Maison et Objet 2020,

LUMNEO, French Company exhibits for the 2nd time At Maison & Objet and reveals its collection of mirror lamp incorporating a neon called MINI and MAXI, and exclusively for the 2020 MOM's edition, its brand new range Ellipse » with two new models in limited edition :

« ELLE & LUI ».

The bright mirror «Elle» incorporates a white neon to the pure line for an ever more perfect reflection. The finish of the wood frame is delicately white with gold foil gilding to reveal the femininity of the object and a naturally dazzling and delicate rendering.

The bright mirror «Lui» incorporates a white neon to the pure line in a painted wood anthracite frame. The wooden frame is also set with white gold leaf for a powerful and elegant rendering.

For the range Ellipse «Elle et Lui», passionate about sailing, Benjamin Méry has the idea of the cabins of the cruise ships that made the beautiful days of the transatlantic crossings and his mirror has something of a porthole on infinity.

The curves bring softness and roundness to these artistic pieces. Gold and white gold finishes adorn each piece of light. The reflection of the neon, its white color, the balance of the lines creates this feeling of infinity and purity.

Ateliers Gohard bring their know-how to the work of the gold leaf. Ateliers Gohard passionately create exceptional, tailor-made finishes based on unique craftsmanship.

Lumneo proposed a Mirror Lamp incorporating a neon whose reflection creates an effect of depth and perspective by reflecting to infinity, like a "trompe l'oeil". Each Mirror Lamp is an original piece.

« ELLE & LUI »
Limited edition

The classics of the collection: MAXI – MINI

Lumneo MINI and MAXI are available in different colours, to be exhibited as a single piece or by combining several pieces for an even more artistic and personalized creation. The luminous intensity of Lumneo MINI and MAXI is adjusted according to your wishes

Lumneo MINI & MAXI range is designed and crafted in France and Italy. Each Lamp-Mirror is designed with the utmost care both for the selection of the materials used and for the assembly in order to obtain the most beautiful rendering, combining the aesthetics of the design and the quality of the hand manufacturing. Concern for the originality, value and skills are the key words of Lumneo's philosophy.

The destination

These are objects both functional and decorative, ideal to create ambiances. They are suitable for places like hotels, bars-restaurants, shops, hosting a company, or for individual furnishings of apartments or houses.

About LUMNEO

Benjamin Méry, 41 years old, has an engineer background. Passionate about design, lamps and video art, he created LUMNEO in 2018. He draws his inspiration from the design of the 60's which began to exploit the possibilities of neon.

He plays on infinite reflection, and thanks to his skills as engineer-designer he miniaturizes and integrates all the complexity of the object and thus creates pieces with elegant lines and design, accentuating the trompe-l'oeil.
