

PRESS RELEASE

GOFI introduces the new “Mini” version of its well-known lamp Fa

The new table lamp will be on show for the very first time in GOFI’s stand at Maison & Objet.

GOFI, the Barcelona based company that produces household products will show at Maison & Objet a new table version of Fa, its well-known floor spotlight. Fa Mini keeps all the features of its older sister: a solid steel base, a thin steel rod and a dimmable spotlight.

This new product, is born of the high demand in having a reduced version of the original Fa, a very useful lamp, perfect to lighting up narrow spaces in which a discreet lamp is needed.

Fa, named after the musical note, was originally designed to light up a paintings exhibition in Barcelona’s Opera House. After the success of the show, Goula / Figuera brought to the market an improved version, which quickly became one of the best-sellers of the company.

Now, the new Fa Mini brings new lighting possibilities to the Fa family.

It is available from 235€ in black, yellow or chrome finish. It will be on show in GOFI’s stand at Maison & Objet, Hall 6, K150, from the 7th until the 21st of January 2020.
