ZOOM ON THE CREATOR OF AFKliving

Emmanuelle Toché has always evolved in an artistic environment. The branches of her family tree are hung by painters, musicians and ardent collectors of carpets.

"Teenage girl, I wanted to create, draw, be an artist!". A little girl's dream that she will not forget. In the first part of his professional life, Emmanuelle is moving towards marketing and communication, embracing, for fifteen years, a career in large companies around the world. She lives in Asia, India, the United States. Her interest for Art and Creation grew bigger while discovering local crafts.

On her return, the Globetrotter discovers a new planet by becoming a mother. "I wanted softness, simplicity, harmony including the decoration of the house."

This change of life prompts her to abandon his former profession "Thanks to this past experience, I have been able to combine my artistic fiber with the ability to manage a company." Then, she started creating objects for everybody's Home.

First goal? The carpets, an inter-generational passion among the Toché! Add a multitude of cushions, baskets for all storage, music mobiles, shelves, wall decoration and other small furniture... A variety of objects to satisfy those who appreciate design and simplicity at the antipodes of the ostentatious.

The sources of her inspiration? Her travels, her penchant for art, design, Scandinavian decor and Paris where she was born. What matter most? "Wellness, family Cocoon and zero stress."
