PARIS

Collection 2020

DALZOTTO is a French brand of bags with unique forms, conceived and made in France.

Creator Sandrine Dal Zotto proposes bags that are infinitely practical on the inside and insanely sleek on the outside, designed for everyday use by (very) active women

"I create chic, practical, and original bags that offer a large holding capacity and functional compartments for active women. Whether they be upstarts, slashers, freelancers, artists, working moms, athletes... Going from the office to the gym, from a co-working space to a restaurant, from trade shows to a diner with friends... In metro, riding a scooter or a bike, in carpooling or walking... Carrying their essentials – their computer, tablet, helmet, gym equipment, water bottle, makeup, second set of shoes, and other accessories, whether necessary or not."
