

*press release:*

SAVED is excited to introduce our latest collaboration with London-based illustrator Fee Greening. Specializing in dip pen and ink, her beautiful illustrations take inspiration from Medieval, Gothic and Flemish art. In this collection we explore the romantic and imaginary world of being an artist - a cabinet of curiosities - jewels, birds and specimens - come to life in cashmere.

Fee graduated from Central St. Martin's in 2012 and received a Masters from the Royal College of Art in 2014. We're extremely pleased she chose to share her brilliant talent to create this collection of cashmere throws and pillows. We know you'll love them as much as we do.
