# OUR ECOLOGICAL COLLECTION

Bleu de Vous present its latest ecological collection called Pin-Up. This swimwear collection was inspired by the style of 1970s vintage underwear. The swimwear of this new collection was made in Mauritius with a superior quality fabric designed in Italy.

It is a high-end recycled fabric made of ECONYL yarn called Vita. A 100% regenerated nylon yarn derived from pre and post industrial waste.

The ecological swimwear are all lined with this fabric to «lift» the body. They easily adapt to every body shape to feel as comfortable as possible, for maximum self-confidence.
