

NEW FEATHERY SHAPES FOR THE EOS™ LAMPSHADE

Introducing two new elegant shapes of the feather icon, named after the two daughters of the designer. The new shapes Evia™ and Esther™ are opening new expressions and possibilities together with the existing Eos collection.

The name Eos™ originates from Greek mythology, the goddess of the dawn, referencing how the lampshade looks like clouds in the sky and the two new shapes are no different. Evia™ and Esther™ will be available in white and two different sizes and can be mixed and matched in clusters of different sizes and shapes to create mesmerizing clouds in the ceiling.

EOS ESTHER™

Esther™ is an elegant and slim cloud hanging from the ceiling, that can be rotated and hung from four different angles, extending the flexibility and visual effect of the lampshade. The oval shape of Esther™ makes it an elegant solution for the dining table.
