

CLAVA UP™ WOOD

SPRUCE UP THE WALLS WITH RAYS OF LIGHT

UMAGE is extending the sculptural Clava™ collection with a new variant for the wall, called Clava Up™ Wood. The recognizable shape made from laser-cut wood lamellae is designed to illuminate the home with a playful flash of light on the walls in the surrounding space.

The wood has a visible grain that enhances the distinct details, soft shape and lamellae of the wall lamp and adds extravagance to the design. The wall lamp is designed by co-founder and Chief Creative Developer, Søren Ravn Christensen, who states:

“From a base of solid natural oak, the light will brighten your home with rays of light and make your walls sparkle.”

Clava Up™ Wood is available in oak, dark oak and black oak in two different sizes.

The wall lamp will become the perfect add-on to a beautiful gallery wall or hanging side by side in a long hallway.

UMAGE is a Danish word meaning ‘making an effort’, and that’s what we want to do every day. UMAGE is where beautiful Danish design meets affordability, high-quality materials and a genuine

care for the environment. Nature is the fundamental inspiration for all the designs at UMAGE, and you’ll notice nature’s presence in the shapes, colours, materials and sometimes even in the functionality of the furniture and lighting.
