UMAGE

HAZEL™ LAMP

A FUSION OF NATURE AND TECHNOLOGY

Introducing a new lamp; Hazel™, with a shape inspired by the humble hazelnut, designed from solid materials and LED technology, it becomes a crossbreed between nature and technology. The organic shapes, the brass details, and the soft light will create a warm yet minimalistic feeling in your home.

Made from black brushed steel with a bottom in brass that adds a lavish expression to the design. Hazel™ has a built-in LED panel with a soft white diffuser that ensures a glare-free light. Hazel™ is compatible with lighting tracks and is dimmable if combined with an external dimmer.

The lamp is designed by the Danish designer Jacob Rudbeck with a background from The Royal Danish Academy of Fine Arts, School of Architecture. He states:

"The design is the balance between dynamic curves and solid materials exactly like nature's hazelnut."

Hazel™ is available in two sizes, making the pendant suitable for countless settings and surroundings. Use Hazel™ above a dining table, as a statement piece in restaurants and bars, in the kitchen or in the smaller corners of your home that needs that little extra lighting.

UMAGE is a Danish word meaning 'making an effort', and that's what we want to do every day. UMAGE is where beautiful Danish design meets affordability, high-quality materials and a genuine care for the environment. Nature is the fundamental inspiration for all the designs at UMAGE, and you'll notice nature's presence in the shapes, colours, materials and sometimes even in the functionality of the furniture and lighting.
