

INTRODUCING CORNET™ A NEW FLEXIBLE LAMPSHADE FROM UIMAGE

We are happy to present Cornet™, a new flexible lampshade consisting of two metal cones that can be rotated and swapped around to give the light and look you seek.

The downward light of the Cornet™ can be controlled and adjusted sideways by rotating the two screens, to illuminate specific points of the interior, making it perfect above the kitchen counter or beside your favourite reading chair.

Cornet™ is designed by the Danish architect Jacob Johan Würtzen working as a product and furniture designer in Copenhagen. He states:

“In the intersection of geometry and asymmetry I designed a conical lampshade with multiple expressions. By switching around and turning the cones, you change the basic shape of the lamp, adding flexibility and a personal touch to the design.”

At UIMAGE, we care about everyone we influence. We make functional and timeless designs that last, we optimise storage and transportation costs with flat-packed designs, to make luxury

accessible to you. The aim is to save the environment so that you can save on living.
