

## CHIMES™ CLUSTER 3

The popular Chimes lamp is now launched in a cluster model consisting of three Chimes hanging from the black metal canopy.

The simple piece of solid oak infused with warm LED spotlight brings the Nordic tones of nature into the interior. Chimes cluster 3 is inspired by the graceful lines that occur in a dense forest of trees growing closely together.

Designed with the thinnest possible shape in mind, the lamps have a spotlight effect that flashes light exactly where you need it. As an effortlessly charming and understated lamp, Chimes cluster 3 is bringing a focused lighting to every dark spot of the home. The lamp's spotlight also offers a good light above the kitchen counter or the dining table. Create special areas in bars, restaurants and hotel lobbies with Chimes' beautiful wooden surface.

Chimes is designed by the acknowledged designer and architect, Asger Risborg Jakobsen, known for his 'Stedsans in the woods' project in the Swedish forest.

At UIMAGE, we care about everyone we influence. We make functional and timeless designs that last, we optimise storage and transportation costs with flat-packed designs, to make luxury accessible to you. The aim is to save the environment so that you can save on living.
