A DREAM BEDROOM DESIGN BY DDR

Design, Decor, Repair Interior Design Studio (DDR) Creates a Luxurious Oasis for Relaxation and Rest Featuring a Soothing Yet Simultaneously Glamorous Space and KOKET's Renowned Chandra Chair

March 2020 - When it comes to interior design the Sochi, Russia-based studio Design, Decor, Repair (DDR) offers stunning spaces executed with precision and care and a dose of some serious finesse. Many say the living room is the heart of a home, however, most will agree that their bedroom is a personal retreat that is just as essential. Perhaps when you think of a dream bedroom you imagine only a plush bed, but to create a true bedroom oasis color choice is also paramount. This bedroom design by DDR's Valeria Mikheeva is a perfect example of a relaxing yet cheerful color scheme perfect for rest, but also far from a room full of boring neutral tones.

DDR was founded in 2011 and has extensive experience in the field of repair and decoration. The firm is not afraid to accept challenges and takes great pleasure in complex and non-standard objects. With experience and a professional team, DDR offers many options for unique decoration and design solutions for the most difficult rooms.

The focal point of this dreamy bedroom is a fabulous accent wall featuring a beautiful soft pink and cool green and teal wallpaper with gold accents reminiscent of natural gemstone. The rest of the room's walls are painted a calming lavender with gold accents for added glamour. Continuing the calming vibes the bed is upholstered in a delicious mint green and the cream-colored curtains are finished with a wide whimsical feathered band.

Contrasting the rooms relaxing tones DDR added splashes of jewel tones, livening the space and furthering the space's sense of glamour. A vibrant purple area rug, a golden oval bench and vanity with a stunning turquoise Chandra chair by KOKET complete the color scheme.

Light is key to color, and DDR knows just how to add light to finish of the room. With a lighted mirror frame, uplighting from beneath the ceiling moldings, luxurious nightside pendants and a stunning chandelier the room comes to life. And through the use of glass closet doors showcasing lit shelving, DDR completes this enchanting bedroom oasis.
