Summer House virtual tour with DelightFULL

You'll want to know
what's coming

we have more,
wait for it...

Dear Journalist,

My name is Sara Magno, from one of the top European lighting brands, also known as DelightFULL, and I'm writing this letter to announce and show you our more recent firsthand news.

As you know, for the last 7 years, April is one of the most expected months in the design industry, since it is the month that hosts one of the most important events of the year, also known as Salone Del Mobile Milano. Unfortunately, this year, due to the current situation we couldn't present our incredible collection to the world's lovers of design, but it doesn't mean that we don't have some novelties.

We created this virtual Summer House, with two unique floors, as a dynamic way to show to everybody that you can get the ultimate inspiration and ideas, without leaving the comfort of your home.

Our design team has created the first floor with the new collection from Essential Home, also known as the Village Collection, and a few of the best selling lamps from DelightFULL. Besides the new pieces, inside you'll also find a big diversity of colors in upholstery since Essential Home features a brand new selection of fabric and textiles that will give a fresh approach to any interior design project. So as you step inside the first floor, as it says in your press release, you will notice that the mid-century modern space is composed of a living area, a hall, a unique room, and a corner space with a reading zone. On the second floor, we will have another hall, the bedroom area, an exquisite closet and a mid-century modern office. This floor isn't available right now since its virtual tour is going to be launched in May, as a second grand premiere of this dynamic mid-century modern digital project. When the time comes, our team is going to make sure that you will be one of the first persons to know about its unique details and exquisite design, that is a promise!

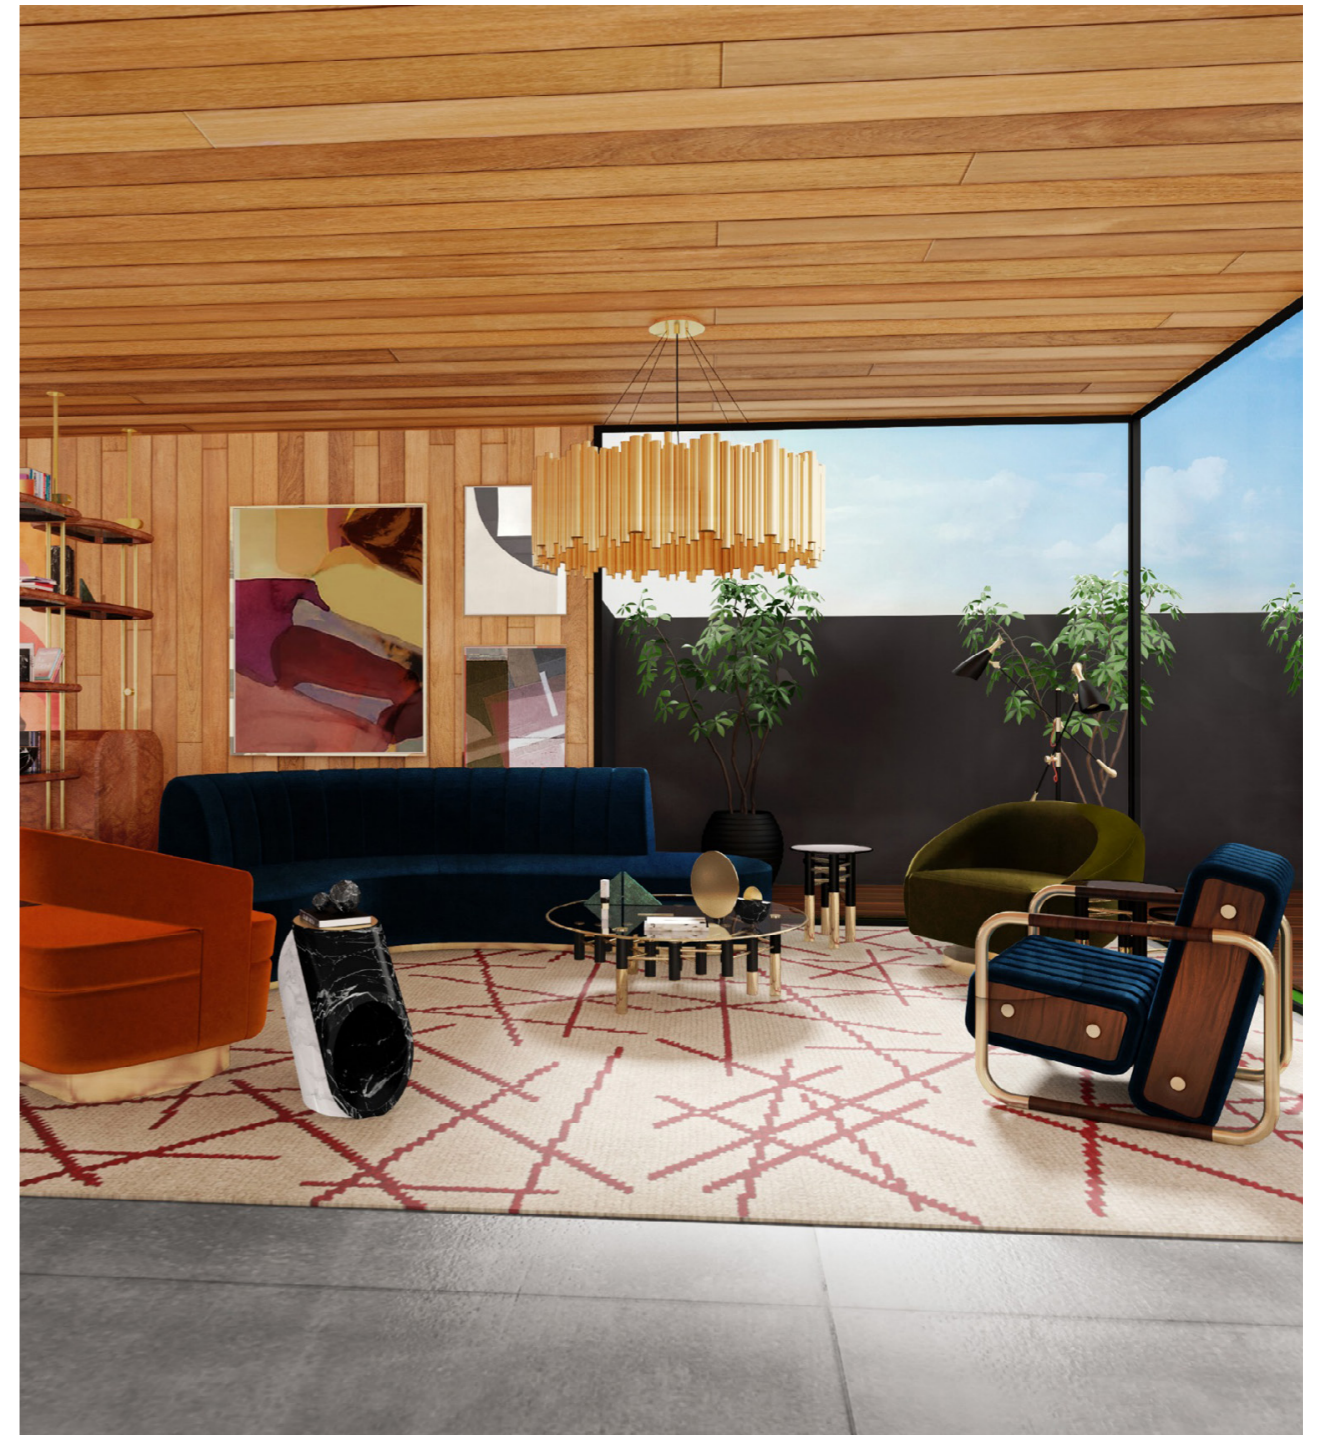

Hope to hear from you soon. Have a lovely week!

Best regards,
Sara Magno

We are working on doing a virtual tour for you with our pieces for a dream summer house!

Starting the best way possible with a living room with a Brubeck suspension! With an exclusive design, this lighting pieces shows us how perfectly it can fit in your living room!

BRUBECK ROUND

Suspension Lamp

Brubeck mid-century modern chandelier is inspired by one of the foremost exponents of cool jazz: Dave Brubeck. This unique lighting design represents the sophistication and finesse of the American jazz pianist, displaying a very luxurious feeling. DelightFULL's skilled artisans handmade this round chandelier in brass, covering it with a gold-plated finish, which can be customized in multiple other finishes. The result of this outstanding creation is a functional dining room chandelier with sculptural shapes.

DUKE

Floor Lamp

Duke Ellington has been an inspiration to the world to many artists and musicians. Therefore, DelightFULL's designers have decided to pay a tribute to this iconic jazz musician and create Duke floor lamp. With a short silhouette and a single swing, Duke floor lamp is a retro-styled accessory for every single mid-century modern interior design. Each cone lamp shade is conducted by a brass arm and its counter-weight. The matte black shades drape on the sides to reveal a white interior and have gold plated accents at the sockets. The three-cone shades that adjust vertically and horizontally have an overall height of 63.7 inches.

Now here you have a hall with Nancy Wall Lamp, that's also included in our list of latest lighting pieces. If you loved them as much as we do, you can't imagine what's coming this Summer. A simple, but elegant lighting piece that you'll never forget.
