supplement    AUTUMN / WINTER 2020

*Handed  
By.*

*Handed By is the leading brand in handmade woven baskets, bags and home accessories and we are driven by the notion of creating a better world. Interested in how we are doing that?*

## JOIN OUR JOURNEY

*It all starts with a unique design, developed in our design studio in the Netherlands, using recycled materials as the base of every product. All our products are handmade by farmers in Vietnam and China. No mass production in factories but small-scale projects with long-term personal partnerships. On our frequent journeys to the Far East, we meet our weavers to teach them to make new products, to help them improve the quality of the products and to listen to them about their daily life.*

*We are very proud of their beautiful handweaving skills of superior quality. In return, the weavers are proud to work for the Handed By brand. By visiting our production countries frequently, we feel a great social responsibility towards our weavers and their families. Everything we design is manufactured in an ethical and responsible way, in which 100% free of child labour is guaranteed. Today there are more than 300 families who we support to help them improve their lives.*

*Handed By has the ambition to make even more impact. By using recycled plastic, we slow down the process of running out of natural resources of the earth. We re-use the existing plastic waste to create new Handed By collections. Within two years, all Handed By products will be made from recycled materials. Another ambition is to add one or two more countries to our journey and thereby supporting even more weavers and their families.*

*Join our journey and help us to reduce the plastic waste. We can all contribute to this process by using recycled plastics in our daily lives. Help the environment and be creative yourself by finding new ways to reduce the use of plastics in general.*
