

OUR CONVICTIONS

- Woloch believes in the power of MEXICANS
- Woloch believes in high quality products made by organic materials
- Woloch believes in hand made goods
- Woloch believes in the people who design and produce art
- Woloch believes in the power of art
- Woloch believes in the power of connecting people through art
- Woloch believes in the power of sharing a piece of Mexico with the world

Woloch Company was founded in Mexico in 2017. Woloch was created to offer talented designers and artisan groups an opportunity of exposing and positioning their work outside of Mexico with no additional cost.

We sell a variety of products handmade in different states of Mexico. In Woloch we value authenticity and high-quality materials in all of the products we represent. We also offer product sourcing and product development services.

All our products have a large impact not only on the buyers who buy a Mexican piece of art home but on the designers and artisan groups that produce the product. Woloch believes in fair trade. We pay our designers what is fair, and our designers pay their teams a fair price as well for all the hours invested in every single piece. However, we also offer a fair wholesale price to our clients. When you buy one of our products you are contributing to a bigger cause which is taking a piece a Mexico with you and helping a lot of families here in Mexico.
