

Reflections

by Chic Antique

We are proud to present our new Autumn/Winter 2020 collection “Reflections”.

More than ever before, we realize the importance of home. Our home is a sanctuary, a calming space for reflection, where we can stay grounded in the midst of turmoil.

With our new collection, we celebrate the beauty of nature and embrace all its calming qualities. We have invited nature inside and introduce beautiful soothing colours inspired by autumn - amazing burned nuances and dark earthy tones.

Among others, this autumn presents lots of new candlesticks, hurricanes, lanterns and tealight holders in antique mocca, champagne, brass, caramel and coal.

A favourite this season, is our assortment of dried flowers. Dried flowers are perfect for bringing a sense of nature inside. In our new collection, you will find several different dried flowers, all in beautiful natural colours. Combine the various flowers and create a beautiful bouquet, or keep it simple with only one type – either way, they will last for eternity.

Our new collection is bursting with the most beautiful authentic craftsmanship and natural materials, which combined with the distinctive Chic Antique style creates an amazing subtle elegance.

This season, you will find lots of gorgeous vintage interior and furniture. You will discover the most amazing handmade folding screen in bamboo, which for sure will create a wonderful vintage vibe. You will also discover a beautiful little vase with a lid, which is inspired by an old antique inkpot found on a small French flea market.

Furthermore, we present an authentic old vase from India made of iron - a true eye-catcher! Its large round shape and raw expression goes perfectly with the feminine expression of flowers.

Throughout the new collection, you will also encounter lots of new factory style furniture, which will give your home decor that amazing industrial edge; cabinets, a serving trolley, bookcases etc.

Once more, you will find several new flowerpot series. We introduce three new series with the most beautiful glazing; our new Nîmes series in latte, a new series in opal and one in antique verte. We also introduce a new series called Évron, embossed with a stunning antique Chinese pattern. Last but not least, you will find our popular flowerpot series Melun in a beautiful grey colour- just perfect for autumn.

This autumn, we have incorporated many beautiful elements of nature. The soothing leaf shape is a recurring motif in our collection. We introduce a stunning brass chandelier with a dangling leaf design, beautiful brass lanterns with the lights shining through in spectacular leaf shapes, and a new flowerpot series called Valence adorned with a lovely leaf pattern.

Nature and its calming effects has been at the heart of our new autumn collection. Our new collection invites you to slow down and reflect – reflect on the beauty of nature and the precious moments in life.

Please enjoy our new collection,

Reflections
