

A stylish complement to a collection of vibrant patterns and luxurious textures.

After launching their spring line of fabric shades, Danish lighting brand EBB & FLOW are presenting a new table lamp base, available in gold and silver. Being known for their glass and crystal lamps, the brand is now introducing a purely metal based lamp.

The piece is uniquely designed with a round metal foot and a sleek round metal arm. Fitted with an E27 white bakelite fitting, it is suitable for all large fabric shades from the brand's new line.
