

EBB & FLOW

Smykke does it again!!

Danish lighting brand EBB & FLOW has received an honorable mention at the prestigious, US-based LIT Lighting Design Awards 2019.

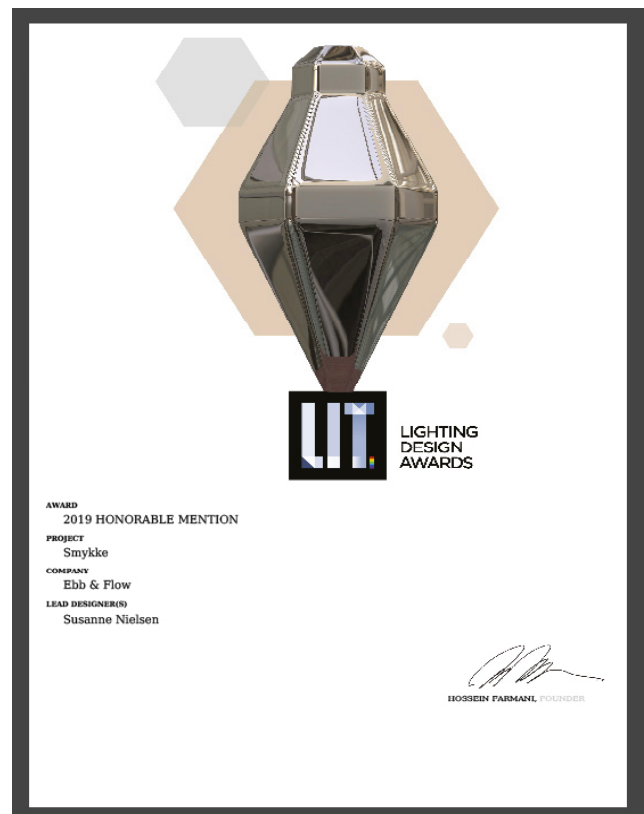

The title was awarded for the brand's beautiful pendant design, Smykke. This is the second prestigious prize for Smykke - which also won at the German Design Award 2019.

What is LIT Award?

"The LIT Design Awards was created to recognize the efforts of talented international lighting product designers and lighting implementers".

"We believe that lighting is both an art and a science, and it is one of the most important elements of design".

"LIT is open to submissions on a global level, accepting entries from lighting manufacturers, designers and practices from all around the world".

In the honour of light

"Farmani Group assembled The LIT Design Awards to bring attention to achievements in lighting product design and to promote the winning designers and implementers to a worldwide audience.

Farmani Group, established in 1985, is the organizer of International Design Awards (IDA), Prix de la Photographie in Paris, London International Creative Awards, and The Lucie Awards for Photography, which has emerged as one of the world's most prestigious annual photography awards".

Smykke

Smykke is beautiful, romantic and exclusive. The pendant collection is inspired by a fascination with precious sparkly earrings.

The pendant lamp is set with two individual pieces of mouth-blown glass to resemble this earring-like feature. The award-winning pendant design has also just been launched as a wall lamp design.
