THE CONCEPT

drink it - plant it

When content is finished, we encourage the reuse of the container, giving the opportunity to the consumer to grow his own herbs.

In each package, we provide a seed stick* glued with a mix of organic herb seeds which can be planted inside the container.

The container can be incorporated into the soil or into a bigger planter leaving zero residues as it is biodegradable.

* Each seed stick contains a mix of certified organic: **chamomile, mallow, sage, lemon balm, thyme, and hyssop**
