Ti amo, Milano – Autumn Trend Italian Elegance

Milano Collection

Milano stands for exquisite, Italian elegance paired with unmistakable design. It's the contrast that does it: Espresso brown lacquered, finely grained oak contrasts with the cream-coloured surfaces in eccentric ray skin look. Just as the milk foam crowns the macchiato. Perfect proportions, sensually rounded edges, the use of noble materials and first-class manufacturing allow furniture pieces of the luxury class to be created. The furniture design of the Milano series celebrates the art of omission and gives rooms a stylish, dignified ambience. The designer furniture of this collection can be staged as a statement piece in the salon as well as a common thread through all rooms to give the apartment an Italian city flair.

Dolce Vita in the Living Room

The Milano furniture collection is an ode to Italian elegance that outlasts every trend. Inspiration is provided by Italian furniture design, which no other nation can match so quickly. Thus, connoisseurs offer top prices for pieces by the wild Memphis group around Ettore Sottsass, who formed everyday objects out of colourful, cones, pyramids and spheres. At the other end of the scale are light-footed retro classics by Gio Ponti, without which no boutique hotel in Portofino can do without. Milan is the creative and style-forming epicentre of all this. Experimentation meets traditional craftsmanship, playful lightness meets discreet elegance. Italy has many more treasures to give away: the finest marble for table tops and lamp bases, or the typical terrazzo look which freshens up the look of KARE sideboard fronts. With Milano, retro armchairs and marble tables, the Dolce Vita is moving in, which we like to treat ourselves to in these times.

A Warm Welcome

You know that warm feeling of finally coming home? So much has changed in our world. Now is the time to enjoy life with friends and family back home. We invite you to the dining room instead of the restaurant and serve the after work drink in our own vinoteca. We play with style elements from Modern Glam to Industrial Loft. This is where the innovations around the house bar and the dining room come into play.

Happy Hour Invitation

WhatsApp at the end of the day: Open the red wine, honey! Whether it's for a beer after work, wine tasting or a cocktail hour, in small or large groups, turn the living room into a popular meeting place. The recipe ingredients for the hospitable mix: bar and display cabinets, chic counters including bar stools, serving trolleys, wine racks or even a multifunctional mini-vinoteca. If you are setting up a bar at home, you will also enjoy a very practical advantage: thanks to many compartments, bottle and glass holders, you gain a lot of storage space for cocktail mixers, favourite wines and drinking glasses.

Appetite for Dining Styles

No matter whether you celebrate a festive meal for the holidays, or make dinner with the kids a family event, the dining table is the absolute focal point. Should it be a sturdy table with a solid wood and steel frame that has what it takes to become a friend for life? Or should the dining table bring home the vibes of trendy design hotspots from Milan to Amsterdam? New models whet the appetite for a makeover and for maximum hours of comfort, upholstered dining table chairs in homely colours.

Floating above the clouds at home

Sidetable Luxury, armchair Sorento

The Metropolis residential trend leaves us floating on clouds - bye-bye, hectic and stress. Grey tones inspired by nature, from dove grey to slate and granite, create a neutral, secure base, evoke images of fascinating skylines or mighty mountain ranges. In front of this stage set, designer furniture, exclusive lamps and artistic decorative objects appear as highlights in chrome and silver. Graphic lines further underline the clarity of this living idea, which can be interpreted according to personal style. A touch of polished stainless steel and a pinch of brass breathe cosmopolitan glamour into the soft grey tones. Velvety upholstered furniture and silky cushions, on the other hand, make us feel as if we are on clouds in this living world. Coolness and a masculine component lend strong accents in black and white. For those who like their home unique but not well-behaved, spice up this luxurious city loft with fiery fuchsia, bright neon yellow or the unfathomable Yves Klein blue. And for those who love the countryside, Metropolis brings the present into the converted barn.
