

Craftsmanship, details, customisation.

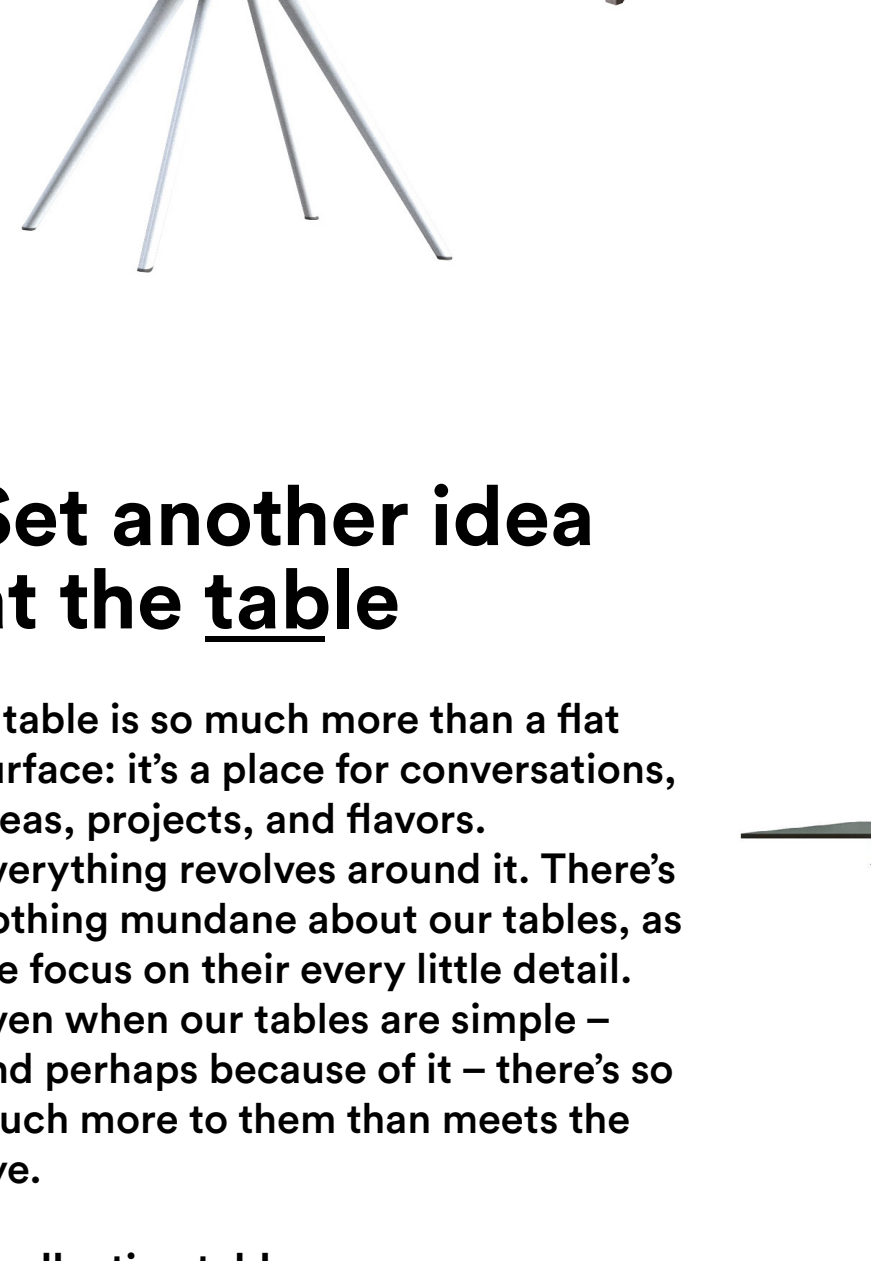

Exclusive workmanship and product industrialisation.

Oak, walnut, beechwood. Always solid wood.

Fabrics and leather.

44 chairs and more, in rows of three with two left over.

Ready? Go!

Make yourselves comfortable

We spend half our lives seating, yet we never seat in the same way. We seat up straight at the dinner table, ergonomically at the office and comfortably at the pub. Every seating has its story and every story requires a suitable chair, that we can manufacture. We choose the best possible styles, shapes, and materials to support you in your everyday life and special occasions.

Set another idea at the table

A table is so much more than a flat surface: it's a place for conversations, ideas, projects, and flavors.

Everything revolves around it. There's nothing mundane about our tables, as we focus on their every little detail.

Even when our tables are simple – and perhaps because of it – there's so much more to them than meets the eye.

Take your space

Fullness and emptiness, *Yin and Yang* in space. A horizontal cabinet encloses this duality: it can fill up rooms and be filled with objects. It represents perfect balance, based on an elegant yet ergonomic design and especially on harmony between volumes. Our modular horizontal cabinets will be in perfect harmony with your spaces.

Step out of your comfort zone

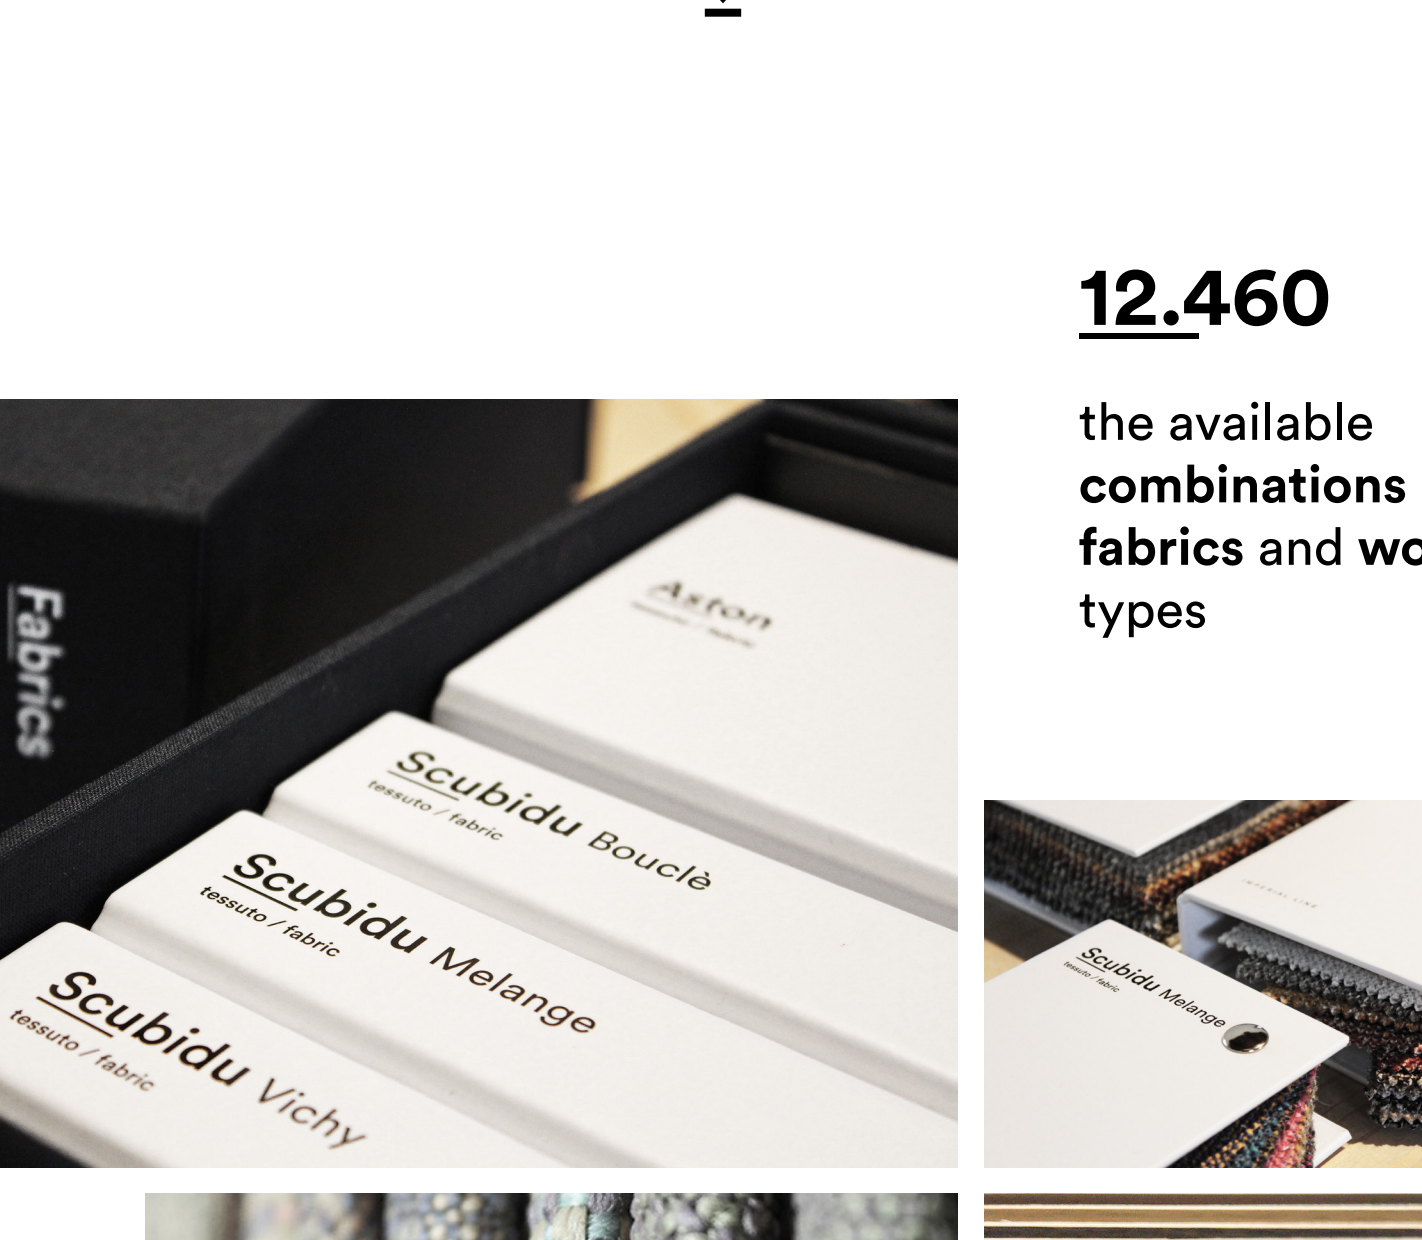

Outdoor life is tough for both men and furniture, and it always has been. It requires the right amount of elegance and strength, style and toughness, comfort and durability, as well as weather-resistant and wear-resistant qualities. To create flawless outdoor furniture, we take all of that into account and blend it together with expertise.

New headquarters...
A new Showroom...
A new emotional route.

We love furniture and interior design. We are eager to explore the wonderful world of design and come up with new ideas. We are meticulous in our search for comfort and functionality and we produce strong and durable products with expertise. These are our best features, perfectly reflected in our wooden furniture for either your home, your office, entertainment spaces, or the hospitality market – and they can be seen in our contract furniture as well.
