

LALIQUE

VOYAGE DE PARFUMEUR

Épines *Edition Platine*

A fragrant journey into magical woods

CONCEPT & DESIGN

For this exceptional edition, Lalique draws its motif from one of its founder's mythical creations:

“Épines Édition Platine”

A masterpiece of crystal-making, the spectacular purple vase of Épines Édition Platine draws its inspiration from René Lalique's theme, tracing the stylized curves of a blackberry bush. A fine layer of precious platinum stamped on the brambles and fruit sets them alight like moon rays, against a background of satin crystal. This exceptional piece is presented in an elegant purple box, hot stamped in silver.

THE OLFACTIVE COMPOSITION

The magnificent vessel holds a pure white wax of the highest quality. Composed by the renowned young perfumer Jérôme Épinette, from the Grasse-based house of Robertet, the rich woody scent blends the evocative notes of a fairy-tale forest.

A sophisticated palette of noble ingredients, from the bright pine and citrus facets of resinous elemi to flaming-gold saffron, and from sensuous vanilla to the delightful smoke of incense and papyrus... Purple notes of black cherry and violet flowers add their delicious glow to a backdrop of velvety patchouli and leather.
