## PRESS RELEASE

*“I launched Eldvarm five years ago today and so we have named this set Cinq, which means five in French. This, our first set of tools for both indoor and outdoor fireplaces, is worth the wait. It’s so versatile, the perfect companion to al fresco socialising around the fire”* says Louise Varre, CEO and founder of Eldvarm.

## EMMA COMPANION SET “CINQ”

We are delighted to announce our latest set of fire tools, the first which can be used both indoors and outdoors.

The stand and tools are made from brushed stainless steel, making them rust-proof. The walnut handles, made using wood sourced from sustainably managed forests in North America, have been oiled with raisin seed oil. This adds not only protection, but also highlights the natural grain in the wood. The brush is 100% natural, our unique Eldvarm blend of horse hair and tampico from the agave cactus.

The set is designed by award-winning Swedish designer Emma Olbers. Highly functional as well as beautiful, the set features a brush, shovel, tongs, blow poker (which can also be used in place of a bellow), all displayed on a stylish stand.

### DETAILS
