This gracious design bears the authentic name of the famous Villa Savoye, one of the greatest icons of modern architecture in the twentieth century, designed by French-Swiss architect Charles-Edouard Jeanneret-Gris.

The base of the handmade lighting design is detailed with an Emperor brown marble base, designed in a cylindrical shape, ending with a solid gold-plated tray. A combination of roughness, delicate detailing, and refined design. This gold and marble table lamp will greatly match interiors of different concepts: either mid-century modern or art deco.

The “Rose City” of Petra was the inspiration for this collection as its design takes us to the temples and ancient richness. The Swarovski Crystal Rocks in the center give this masculine design a touch of elegance, being framed by a rectangular structure in gold-plated brass that grants it a harmonious balance. The lampshade with a gold brass strip on both extremities conveys a luxurious and sophisticated look that doesn’t go away unnoticed. This timeless seductive design is the perfect decorative lamp, capable of fitting in the most demanding decors and high-end project. The use of numerous materials such as brass and marble, allows this unique lighting fixture to transport you to an exotic environment when light spreads through the ambiance.
