

## *In 2021. Music becomes color...*

Château Mauriac, 1<sup>st</sup> October, 2021

Maison Petrusse has dreamed of the Spring Summer 2021 collection as a fairy-tale journey. Like the dream of a summer night, it imagines a better, starrier world where creativity, solidarity and responsibility become one.

Silk square Flève, Made in France

**A collection with vibrant shades:**

In the summer of 2021, the colors are intertwined and merge to compose a harmony of stoles. Between a flight of orange, red and Indian pink and softer tones, two strong melodies stand out and come together in an intense palette.

**A collector's choir in music:**

Maison Petrusse has always celebrated the alliance of culture and craftsmanship. At the heart of its collection are inspiring partners such as the Bordeaux National Opera, a scenographer and internationally renowned opera singers. The weft thread then becomes a stave on which the artists express themselves. Carried away by the music in the background, Maison Petrusse

sets the rhythm and makes its brushes vibrate, like conductor's sticks, to the deepest fibers of the fabric.

**The symphony of responsible manufacturing:**

Great attention is paid to the mastery of responsible manufacturing. From silk squares printed and hand-made in France, to stoles finely woven in India by carefully selected craftsmen, to our products reinvented in our workshops in the heart of the Bordeaux vineyard with a logic of recycling and revalorization of archive pieces.

The entire Spring-Summer 2021 collection will be available from February with exclusive launches in December in our stores and on our e-shop.

**Enter Petrusse's dream:**

For more than 20 years, Petrusse has been cultivating excellence in the heart of the Bordeaux vineyard and composes stoles with passion. Creativity and the world of Art are its pigment. Inspired by artists, she has forged a free spirit and a vibrant signature, where color tirelessly serves emotion and expression. In line of mir? The beautiful Horizons. More than ever the solidarity to think about the future.
