TWIST SUSPENSION

Twist suspension materializes the concept of twist in its design. The combination between the glass and the gold-plated brass structure gives this one of a kind handmade lighting piece a sense of refinement that is unusually seen. This elegant design reminds the famous Victoria waterfalls in Zimbabwe, as it gives the illusion of falling water.

A sense of infinity is passed through the complex composition, conferring to this handmade suspension a capacity to surprise and continually reveal new sides.

Twist was conceived to fulfill wide spaces like luxurious hotel lobbies and large exquisite staircases. This striking piece has in its lines a balance between past and present and it's essential to unique interiors that seek to enhance luxury accents.

RAVEL
SUSPENSION

RAVEL SUSPENSION

Maurice Ravel was a French composer and pianist often associated with Impressionism. This suspension uses the same name and grandeur it offers as the gold and the Swarovski crystals enhance the luxurious element within this lighting piece. This combination results in a sophisticated yet dynamic design that stands out in any ambiance, just like Ravel's music.

Ravel suspension was created to be perfect yet functional and practical. Stunning Swarovski crystals emerge from the middle of the delicately hammered gold-plated brass, allowing the light to spread to the surrounding space and creating the perfect ambiance in the area.

AVOLTO WALL LAMP

Inspired by contemporary style, Avolto Wall Lamp was designed to be an impressive and natural spotlight in the most demanding interior design projects. Fundamentally, simplicity, subtle sophistication, texture and clean lines help to define contemporary décor style, being this piece perfect to fit this type of interiors.

The 24k gold plated brass tubes are hammered by the hands of experienced craftsmen and decorated with Swarovski Crystals carefully assembled one by one by lighting manufacturers. This fact allied to the possibility of customizing the light in numerous configurations confers an exclusive personality to each project.

AUREA SUSPENSION

Aurea Suspension was inspired by the female Latin name “Golden” as it represents the goddess of breezes. The dramatic circular silhouette makes this design the eye capturing feature for any ambiance, creating an explosive movement of light, as it reflects the gold and black accents of the piece.

Made of gold-plated brass and lacquered black, this luxury lighting design is an embodiment of fineness, complexity, and attention to detail. An admirable collection designed for the most exquisite and creative minds.

STREAMLINE SUSPENSION

This piece was conceived to be distinctive and stand out for its design, becoming the perfect fit for curated interiors that combine a diversity of styles. This elegant suspension features long gold-plated brass tubes that give the design a whole exclusive and deluxe look, setting another level by its distinctive appearance. This recipe of rich materials and sleek lines inspired by art-deco architecture makes the Streamline suspension desirable.

Streamline is versatile due to its details that will enrich the décor of a wide range of interior design styles. The shining gold-plated finish confers an extraordinary beauty to the brass, enhancing its value as a noble material. The fluid shades from the piece contrast with the geometric forms, playing nicely with abstract art.
