## YOUR SLEEP, OUR SCIENCE.

### That is the motto of the new Portuguese start-up MARIALMA.

The company was born out of the necessity of enhancing the way you experience sleep. MARIALMA develops healthy fabrics that can work as an antiallergenic and antibacterial element.

By combining advanced technology with the best prime materials and all the expertise of the Portuguese textile industry, MARIALMA explores the next dimension of sleep and recovery.

Founded in 2018, the brand is a response to consumers who struggle with sleep disorders or that have a skin condition that causes disturbances to their sleep cycle, such as night sweats and allergies. They can also be used as a complement to any skin treatment.

The brand also offer bed sheets specially made for new-borns and children that suffer from atopic skin, so that the environment in their bassinets and cot bed is healthier and cooler.

*"With 100% natural and biodegradable prime materials, our fabrics are soft and cool to touch, with elegant and detailed seamstress work. People who sleep with our sheets or use our loungewear have felt a decrease in the sensation of dry or irritated skin, inhibition of unpleasant odors and a natural control of body temperature" – states Ana Osório, co-founder.*

Using natural fibers like hemp, Egyptian cotton and cellulose from the eucalyptus trees, combined with active components such as zinc oxide and seaweed, MARIALMA produces healthy functional bed sheets and loungewear. These active compounds contain unique characteristics that are beneficial for your skin's health. To permanently embed these benefits into the cellulose fiber, the brand uses a highly advanced patented process that allows to preserve the characteristics in the fabric for the whole bed sheet lifespan, regardless of the number of washings.

# Healthy bed sheets

## **NO WASTE POLICY**

One of the main pillars of the brand is the concern for the environment, therefore it does not use plastic and tries to minimize its impact during all stages of production. That is why MARIALMA only produces made-to-order, thus avoiding textile waste and unnecessary warehouse storage.

## **SOCIAL RESPONSIBILITY**

With a strong focus on achieving body & mind balance, 1% of all sales go to Encontrar+se association, a Portuguese social solidarity private Institution that promotes mental health initiatives.

MARIALMA's products are available exclusively online at [www.marialma.com](http://www.marialma.com).
