NATURAL HEMP BED SHEETS COLLECTION

Soft, Luxurious and Sustainable

www.marialma.com

When it comes to natural healthy fabrics, there is one that stands out: Hemp.

Hemp fiber has been used for thousands of years and, in fact, materials made from hemp were discovered in tombs dating back to 8,000 BC. Hemp fabric is made from cannabis Sativa fiber, also called industrial hemp.

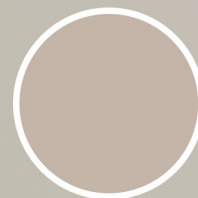

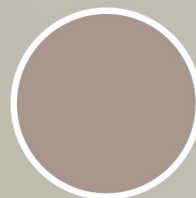

MARIALMA's choice to produce a Natural Hemp Bed Sheets Collection is due to the unique characteristics of Hemp and the number of benefits it can bring to one's overall health.

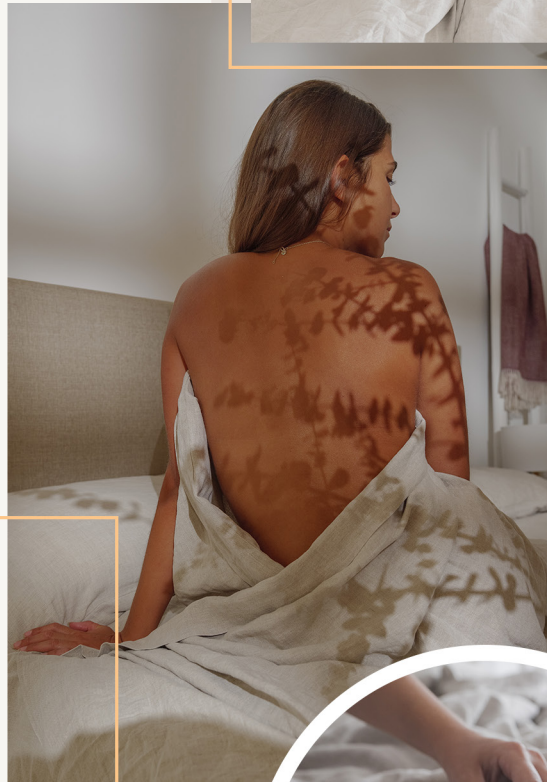

Environmentally friendly, hemp naturally repels insects and controls the growth of weeds and invasive plants, which means that it does not require harsh chemicals and pesticides to help its growth. These characteristics guarantee the brand will keep a minimal environmental impact during any stage of production of these bed sheets.

The Natural Hemp Bed Sheets Collection is made of 100% hemp and, therefore, is naturally breathable and contains anti-microbial characteristics that make it allergen-free.

These bed sheets can also act as a natural thermal controller as the fabric naturally cools the body and absorbs moisture. They are perfect for hot and humid climates, or for anyone prone to sweating at night. On the other hand, they will also keep the body warm in colder months. Lastly, hemp is an ultra-resistant fiber, lasting longer than linen.

Crafted in Portugal, hemp bed sheets are highly breathable, extremely durable and get softer with time.

MORE ABOUT MARIALMA

Your sleep, our science.

That is the motto of the new Portuguese start-up MARIALMA. The company was born out of the necessity of enhancing the way you experience sleep. MARIALMA develops healthy fabrics that can work as antiallergenic and antibacterial elements, so they can be used as a complement in the treatment of specific skin or sleep disorders.

Discover more benefits of Marialma's Natural Hemp Bed Sheets Collection on their blog or shop their products here.
