## STYLISH CONCEPTS TO INSPIRE THE FUTURE OF HOME OFFICES

Designing a home office space today is no easy task. Not only does it need to be functional for the increasingly complex tasks of the modern-day business culture, but it also needs to have an appealing factor to make you feel rewarded and accomplished while you work. The perfect

fusion between function and beautiful design is the pinnacle that every home office room should aim for.

LUXXU brought to life a few home office ideas, with beauty and elegance in mind, while still considering comfort and functionality.

## MONOCHROMATIC WITH A TOUCH OF GOLD

Monochromatic schemes are transforming every space into what many define as the use of a singular colour. Various shades of black are the main focus of this interior while glamorous designs such as the Empire chandelier by LUXXU complete the look. With its imposing presence which is inspired by the beautiful Empire State Building, this piece alone is capable of

transforming every space into a stunning scenario, where its golden finishes and 14k crystals stand out. Still complementing the monochromatic theme, we can see the Charla Office Chair in light grey leather with soft wool and beautiful dark wood and black lacquer finishes, making this home office as comfortable and luxurious as possible.

## CREATE A SMALL SPACE WITH A SIMPLE AESTHETIC

As the fantastic Leonardo da Vinci used to say - "Simplicity is the ultimate sophistication." This was the key component behind this simple yet beautiful home office design. Highlighting a contemporary style, this office interior features the beautiful Waltz desk, where the contrast of its

textures is the result of coordinated work between design and craftsmanship. Its dark wood frame combines perfectly with the golden touches of the Waltz Bookcase, giving the luxury feel that it is needed in exquisite workplaces.

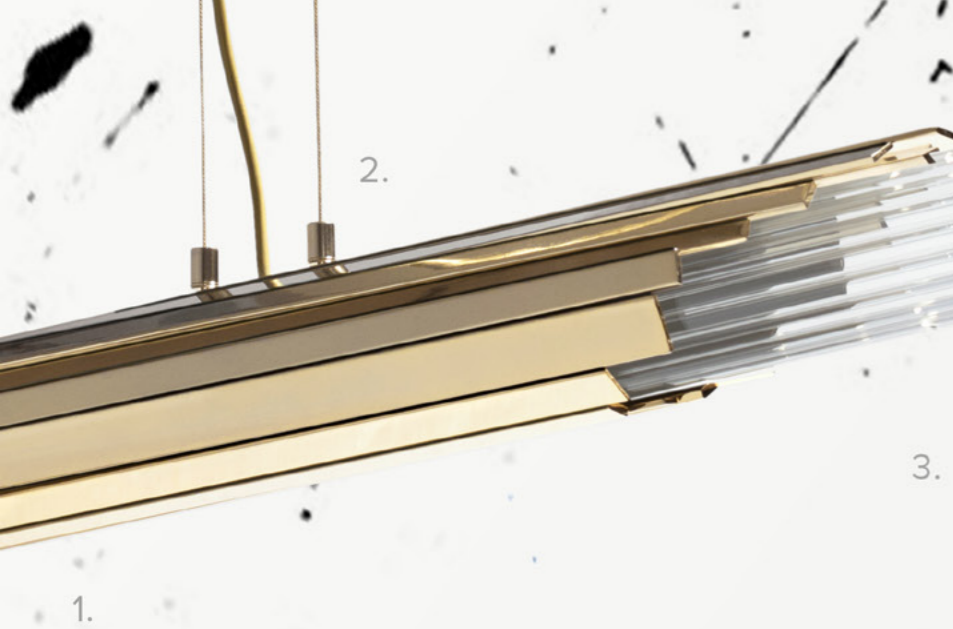

## THE DESK IS THE ANCHOR POINT OF AN OFFICE SPACE

Nothing boosts productivity than an exclusive desk that conveys an unmatched sense of style and aesthetics. The Apotheosis desk is the anchor point of this interior and makes quite a vigorous statement. It is equipped with a USB port for better accessibility and the walnut

root and black leather finishes. Furthermore, the golden accents of the Waltz Bookcase contrast beautifully with the soft grey tones found throughout this space. Lastly, the huge full height glazed window panel brings all the light needed for one to work.
