Once upon a time...

Alsatian, fallen under the spell of Marseille soap, my beautiful story begins in 1983 in a Mas surrounded by reeds and southern essences which have never ceased to nourish my creativity to lead today to this concept: «For a truer, healthier, more natural daily life». Association of knowledge, advice and sharing.

Our Beliefs

French ingredients from sustainable agriculture. Local partnerships.

The MAS's idea since its creation in 1983 is to go back to basics by offering you ancestral recipes, revisited and updated.
